

Reference Materials for Laboratory Assistant Programs

The Ontario Society of Medical Technologists has the following reference materials for instructors and students of laboratory assistant training programs:

- Reference Guide of Acts and Regulations for Medical Laboratory Assistants and Technicians in Ontario**
Description: This 31-page reference guide contains descriptions and sections of acts and regulations of Canada and Ontario that are relevant to laboratory assistants and technicians.
- Histology and Cytology for Medical Laboratory Assistants and Technicians**
Description: This 21-page document has just been updated to fall in line with the requirements of the updated OSMT MLA/T Competency Guidelines.

To order these reference materials, please complete and return this form.
